Summary

Expert Chiropractor and Physical Therapist with over nineteen years of experience diagnosing disorders of the spine and other body joints; treating those patients whose symptoms result from abnormal neuromusculoskeletal conditions or joint mechanics through the corrective manipulation of the spinal column or other joints, along with various types of therapeutic exercises and rehabilitative modalities.

- Great knowledge of the effect of diseases and injuries, as well as advise on social or personal problems in setting up a treatment plan.
- Solid knowledge of managing the operations of a business, company, or group.
- Excellent interpersonal and communication skills.
- Sound ability to manage the time of self and others.
- Strong ability to effectively communicate diagnostic test results, diagnose and propose treatment in a manner easily understood by the clients.
- Profound ability to approach problems objectively and provide support to clients and their families.
- Willingness to learn to keep constant with new researches and other ways of improving patient care.

Professional Experience

Key Deliveries

- Provide professional chiropractic care, including manipulation, physiotherapy, spinal decompression, and exercise rehabilitation.

- Additional products and/or services include nutritional counseling, health and wellness training, and relevant referrals for diagnostic imaging.
- Identify and evaluate patient needs through effective communication; suggest service and/or recommend products that foster a healthy lifestyle.
- Coordinate treatments plan with medical doctors, physical therapists, nurses, and administrative staff to provide a comprehensive, client-focused approach to patient care.
- Develop patient education and home exercise programs.
- Evaluate and organize office procedures to ensure an effective and efficient flow of work. Supervise clinic staff, therapists, and interns.
