Professional Summary

Dr. Emad Ghobrial is a compassionate and detail-oriented Doctor of Chiropractic and Qualified Medical Evaluator based in Southern California. He provides evidence-based chiropractic care specializing in personal injury rehabilitation, spinal health restoration, and med-legal evaluations. As the founder of Dr. G Chiropractic, Dr. Ghobrial is dedicated to delivering individualized, patient-centered treatment with a focus on improving function, reducing pain, and supporting long-term recovery. His clinical approach integrates diversified and instrument-assisted techniques with physiotherapy and decompression to restore biomechanical balance and optimize healing.
