ABOUT

Atlas Health Center provides evidence-informed chiropractic care with a strong focus on personal injury, trauma recovery, and functional rehabilitation. Our Saratoga location delivers individualized care plans, detailed documentation, and consistent communication to support both patients and referring attorneys.

Dr. Tyler Jochen is a chiropractor with a strong background in exercise science and extensive experience treating auto accident injuries. After spending significant time in the high-volume San Francisco Atlas Health Center, he is fully trained in the clinics established PI systems, documentation standards, and treatment protocols. His approach emphasizes neurologically based chiropractic care, functional movement assessment, and long-term recovery strategies that address both physical and emotional impact of trauma.
